Portfolio: lauraledesna.io

AI Senior Product Designer working on agentic systems and multi-agent workflows. Experienced in designing orchestration pipelines, rules-based automation, and complex workflow simplification. Currently defining agent behaviors, rules, evaluation frameworks, synthetic user testing and agent-persona relationships.

Competencies

AI & Agentic Systems Agentic AI UX · Multi-Agent Interaction Models · Autonomy Spectrum · Trust Architecture · Behavioral Transparency · Behavioral Specification · Agent Evaluation Frameworks · Synthetic User Testing · Human Oversight Design Systems & Workflows Systems Thinking · Design Strategy · Workflow Design Core Design Interaction Design · Design Systems · AI Prototyping · Research Synthesis · Accessibility & Inclusive Design Leadership Cross-Functional Collaboration · Mentorship & Design Leadership

Professional Experience

AI Senior Product Designer | Boost B2B Payments

Industry: Fintech

Sept 2025 – Present

- Design agentic product workflows with role-based agents, delegation levels, permissions, and shared context across product
- Architect scalable design system libraries across Figma and React repositories to support cross-functional collaboration
- Leading UX design for complex systems involving multi-role workflows, rules configuration, and enterprise interactions.
- Creating interactive prototypes and system flows that translate product concepts into clear, actionable direction for stakeholders.

UX Consultant | Advision Development

Industry: Sports Betting

Nov 2025 - Dec 2025

- Led design coordination across teams working on operational and data-heavy enterprise tools, supporting workflow definition and scalable design system structures.
- Advised stakeholders on translating ambiguous business and technical requirements into scalable UX frameworks, interaction models, and operational workflows for enterprise tools.
- Consulted on workflow strategy, system dependencies, and operational constraints to improve clarity, usability, and trust across complex user experiences.

Senior Product Designer | Freelance

Industry: AI / Applied AI Tools

Apr 2024 – Sept 2025

- Built NUVUN, an AI-powered research assistant that synthesizes insights, supports decision-making, and accelerates ideation for teams working in healthcare, finance, and operations.
- Designed AI-assisted workflows such as conversational guidance, personalized dashboards, and prediction-driven UX.
- Developed modular component systems and logic-based prototypes in Figma and Cursor to test reusable, data-driven UX frameworks.

Senior UX Designer | Endava

Industry: HealthTech and Fintech

Mar 2021 – Jun 2023 Clients included **MedBridge** and **Grameen America**

- Explored AI-assisted healthcare experiences focused on personalization, patient engagement, and behavior-driven interaction design.
- Led cross-functional product initiatives for healthcare and fintech platforms, aligning business goals, user needs, and technical constraints across complex operational systems.
- Conducted research synthesis, journey mapping, and stakeholder workshops to define product direction, prioritize opportunities, and bring structure to ambiguous problem spaces.

Senior UX Designer | Department of Education & Technology

Industry: EdTech

Mar 2018 – May 2021

- Redesigned digital services used by millions of families during the pandemic, prioritizing accessibility, clarity, and emotional support for parents and educators under stress.
- Improved navigation and data structure for high-volume platforms supporting remote learning, scheduling, and resource access.
- Conducted foundational research across rural and urban regions to understand cultural, technological, and emotional barriers to access.

Education

Jorge Tadeo Lozano University
Bachelor of Cultural Resource Management and Policy Analysis (2018)
Bachelor of Graphic Design (2014)

Certifications & Training

UX Design for Agentic AI | Maven | 2026
Google Project Management: Professional Certificate | Coursera | 2024
Design Management | 2016 | Jorge Tadeo Lozano University
